

Ingredients

- 2 standard yoghurt pots of PVA glue
- 1 pint warm water
- 1 tbsp borax
- 1 tbsp glycerine
- Food colouring
- A few drops of water

Method

1. Dilute the glue with 1 pint of warm water in one bowl.
2. In another bowl mix borax, glycerine, food colouring and a few drops of water.
3. Gradually add the borax mixture to PVA mixture, mixing well.
4. Be patient and carry on mixing carefully; eventually it will turn to slime.
5. Store in an air tight container.

Ingredients

- 2 cups of corn flour
- half a cup of water
- food colouring

Method

1. Place the 2 cups of corn flour and half a cup of water in a bowl.
2. Add food colouring.
3. Mix together.
4. Store in an air tight container.
